ADD-ONS

KIND WORDS

“Sydney made our entire shoot such a fun and memorable experience! She has an incredible ability to guide and direct in a way that feels effortless and flows naturally, while also bringing creative ideas that truly reflected us as a couple. The whole time, it felt like we were the main characters in our own movie!!! When we saw the final photos, they looked like stills from the dreamiest romance film!! To top it all off, she even sent us home with Polaroids from the shoot, a thoughtful detail that made the experience even more special.”

YOUR WEDDING PHOTOGRAPHER SYDNEY

Hi, I'm Sydney Crosby! I am a visual storyteller and hopeless romantic. I am passionate about all things photography and aim to deliver galleries that make my clients feel like the main characters in their own movie as well as allow them to relive their wedding day. Your photos are important to me so I have backup systems in place for my gear and if the weather does not cooperate. If it rains- we will have our Notebook moment!

As someone who does not feel natural in front of the camera - I know the importance of feeling comfortable with your photographer. Let's set up a call to get to know each other, see if there are any questions I can help with, and later on if you are still needing help feeling confident in front of the camera - I am happy to have an exclusive call with you to talk about different posing techniques and ideas to help you stay comfortable.

I am easy going and prefer to be a fly on the wall when I capture weddings. I give direction when needed to help a moment translate well into the camera but am also good at capturing moments as they happen naturally.

When I am not taking photos you can find my at home with my husband and our bulldog Jake, adventuring, out looking for sharks teeth, trying new coffee shops, or watering one of my many house plants.
